Spacerail Ball Roller Coasters

Spacerail is a spectacular ball roller coaster that guarantees high-speed action rides consisting of wild rotations, daring loop-the-loops and spectacular swivel motions. These ball roller coasters are an ultimate challenge for teenagers and adult enthusiast alike. The absolute highlight: after a fast action ride the balls land in the battery-powered elevator that brings them back up to their starting positions. The construction of our Spacerails is so much fun and a huge challenge at the same time! Depending of the level, construction can last from several hours up to several days. For Level 9, we recommend an academic degree - preferably with a doctorate! Recommended age: 14 +.

Hako - the thrilling strategy game & Soap Bubbles

- 1 – 4 players
- HAKO was awarded the bronze medal at the IENA International Exhibition of Ideas, Inventions and New Products in Nuremberg/Germany
- Educationally valuable game (recommended by physicians and school educationalists)
- Play with one or more marbles. Be the first to reach the top level of the HAKO box with your marbles
- The game starts on the ground floor of the box. Choose a hole, play your marble, and route it to the right exit to climb to the next floor. Play further marbles and climb to higher floors until a marble rolls to the left exit. Now it is the turn of the other player. Climbing up quickly will not give a guarantee for a rapid victory. If a player chooses the wrong hole the marble will slide down to the ground floor and his game begins anew
- The HAKO box contains a hidden maze. Stake out up to 5000 different routes through the maze by means of special tubes inside the HAKO box. Only one hole per level routes marbles to the right exit.
- Endless fun
- Available in 3 different colours
- Each box contains 2 x 5 marbles + basic playing instruction
- **Extensive playing instructions and further accessories can be downloaded on www.hako-game.com**

0 85276 00080 0	MOQ	CP	MC
	1	8	8

The AeroPress™ is the result of years of applied research by inventor and engineer Alan Adler. Adler's numerous brewing experiments demonstrated that proper temperature, total immersion and rapid filtering were the keys to obtaining excellent flavour. He then designed and tested dozens of brewing methods before settling on the AeroPress™ design. Independent reviews suggest the new Aerobie AeroPress™ delivers the smoothest, richest, purest and fastest cup of coffee (under 30 seconds) you're likely to find.

- Water and grounds are mixed together for ten seconds. Use 80°C water for the very best taste
- Then gentle air pressure pushes the mix through a micro-filter in 20 seconds
- The total brewing time of only 30 seconds results in exceptionally smooth flavour
- Incl. instructions for using an AeroPress™ and making the best coffee or espresso you have ever tasted
- Each AeroPress™ comes with 350 filters. Replacement packs of 350 filters are available
- Made in U.S.A.
